

Did You See the Butler Corner?

IT IS SHEMANSKI'S JEWELRY STORE

THE same B. Shemanski from Goldfield, who for the past seven years conducted a business in that city, and for the past nine months in Tonopah. Known all over the State of Nevada as the place for a square deal to all. Prices and goods right. The Grand Opening Will Be

Tuesday, October 10th, 1911

Prices as low as city prices. To pick from a Big New Stock, it will pay you to BUY NOW for Xmas. By paying a small deposit we will reserve goods.

You have seen for the past nine months the reaction in the jewelry line. Why was it? Not because the prices of jewelry, diamonds, watches, clocks, etc., went down. No, it is because Shemanski opened business in Tonopah.

Burn Up Your Jewelry Catalogues and Buy at Home!

at the same prices, or less, and see what you purchase.

The Reliable Jeweler

DR. RALPH GOLDBERG
Expert Optician will be here tomorrow, in my place of business, for one day only, that is for tomorrow, Sunday.

BUTLER CORNER
Main St., Tonopah Nev.

TONOPAH NOW EXTENDING AREA VERY RAPIDLY

**EDWIN BARUCH, BACK FROM
CAMP, ASSERTS THAT DISTRICT IS EXPANDING.**

NEW YORK, October 7.—Edwin Baruch, of the firm of Baruch & company, brokers of New York, is back in this city after making an extensive stay at Tonopah, looking over the recent changes that have been underway in the district, as a result of which he asserts emphatically that the developments during the past eight months at that camp have liberally extended the territorial limitations of this camp and that mining men believe that if the present underground improvements continue, another Virginia City may likely be opened up in that section.

"The best proof of this matter," said M. Baruch, "is the fact that the Tonopah Belmont company has found its best ore below the 1300-foot level, while the new development recently undertaken at the camp has been extremely satisfactory."

M. Baruch is particularly emphatic over the possibility which he states prevail in the ground of the Rescue-Eula company, and states that those in control of this enterprise believe that they will sooner or later open up an extension of one of the Belmont shoots. The company, he says, is well equipped and has an extensive development campaign under way, and in addition has \$30,000 in cash and 400,000 of its 1,500,000 capitalization in the treasury. Mr. Baruch is also of the opinion that it is only a question of deep development in the Jim Butler territory to get at pay ore. He says that new money is coming into the district, and, whereas mining men originally believed that the camp was a small one, the recent ore discoveries have expanded its possibilities on a very large scale. He is particularly enthusiastic in regard to the camp.

GOLDFIELD POSTAL BANK REACHES ASTONISHING TOTAL

GOLDFIELD, October 7.—Another banner month in the postal savings bank is shown by Postmaster Collins' report for September, which shows total deposits on hand up to October 1 of \$63,150. A considerably greater amount than this has been deposited, but the above figures contain the balance on hand after the deduction of withdrawals.

During the month 78 new accounts were opened, giving a total of 656 accounts begun since the inception of the postal savings department here on June 1. This is a record, it is believed, for the entire country in a city of the size of Goldfield.

OUR QUICKSILVER PRODUCTION

The world's production of quicksilver last year was 3747 short tons, of which the United States produced 773 short tons. Quicksilver is usually quoted in "flasks," a flask containing 75 pounds. The American production therefore represents 20,601 flasks. Of this amount California furnished 17,211 flasks. In 1850 the quicksilver production of that state was 7723 flasks, but California's greatest production was in 1881, when the yield was 60,851 flasks.

In 1910 only two countries produced more quicksilver than the United States—Italy 882 tons and Spain 1102 tons. These and other statistics are given in an advance chapter on quicksilver from Mineral Resources of the United States, 1910, by H. D. McCaskey, of the United States Geological Survey. A copy of this chapter may be obtained upon application to the director of the survey, Washington, D. C.

IS IMPROVING.

Word received in this city from Governor Oddie is to the effect he is daily gaining strength and feels considerably better since going to the coast.—Carson News.

THE TONOPAH LUMBER CO. has the largest stock of all kinds of lumber—mining timbers and building material; wholesale and retail. Mining timbers a specialty.
